▼ Ticket Overview

Ticket: #29832

Category: Linksys Technical Support

Status: Resolved

Updates: 9

Assignee: Trecia Malunjao

Time Spent: —

▼ Customer Details

Name: Dan Loewe

Email: blueshockey1942@gmail.com

Phone: 3145982284

Country: United States

▼ Device Details

Model Number: MR7500**Serial Number:** 45c10m2ad03842**Warranty Start Date:** 2024-08-21**Warranty Status:** Active**Problem Category 1:** Configuration**Problem Category 2:** Configure Wireless Settings

The Problem

Customer wanted to split/separate the 2.4GHz and 5GHz networks on his MR7500 router. He needed guidance on how to configure wireless settings correctly.

✓ Actions Taken

- Agent connected customer to Wi-Fi and opened browser to myrouter.local
- Agent guided customer to reset router password via the 2-phone method, but customer declined
- Customer logged into Linksys account instead
- Agent navigated customer to WiFi settings to separate the network (split bands)
- Agent educated customer that band separation cannot be done via the mobile app
- Ticket resolved by agent trecia.malunjao@concentrix.com
- Survey sent to customer on 2024-11-01
- Special Deals 50% email sent to customer on 2024-11-02

 **Summary:** Agent walked the customer through accessing the router admin interface, logging into the Linksys account, and separating the wireless network bands, while clarifying that this feature is not available in the mobile app.

 **Insights:** The customer was unwilling to reset the router password via the recommended method, which may indicate friction in the standard troubleshooting flow. The resolution was achieved by adapting to the customer's preference and using the Linksys account login path instead.

▶ Next Steps

- No further action required — ticket is resolved
- Monitor for any follow-up if customer encounters issues with the separated network settings

📅 Timeline (5 entries)
