## FGW5500 无法使用

**The Problem:** Mr. Li's FGW5500 router is non-functional — the LED lights cycle abnormally, the device cannot be factory reset, and no default Wi-Fi (SSID) is broadcast, indicating a likely hardware failure requiring an RMA replacement.

### The Action:

- Support agent walked Mr. Li through a factory reset (holding the reset button for 5+ seconds), which did not resolve the issue.
- Agent confirmed hardware fault after reset failed and no Linksys SSID could be detected.
- Agent (Kelly Cheung) requested a photo of the product's bottom label (showing the serial number) and a full screenshot/photo of the China Mobile contract to verify warranty eligibility.
- Customer submitted a photo and a PDF attachment (twice, appearing to be duplicate sends).
- Agent reviewed the submitted contract documents and found them incomplete — requested the customer retake photos with the overlay slip lifted, all pages photographed, and no obstructions.

- A separate internal note was sent to Kris Qin (supervisor/escalation contact) asking whether warranty/RMA can be processed for a China Mobile contract device (purchased 11 June 2024) and clarifying that the customer had already been directed to TechData by China Mobile before calling Linksys support.

### Next Steps:

- Await Mr. Li's resubmission of clear, complete photos of the China Mobile contract (all pages, overlay lifted, no obstructions).
- Kris Qin needs to confirm the RMA eligibility and advise on the correct RMA channel for a China Mobile contract device purchased via TechData.
- Once warranty is confirmed, agent should communicate the RMA process and next steps to Mr. Li.

### Timeline:

- 📅 2026-05-18 08:35 — Customer (Mr. Li) — Called in reporting FGW5500 is unusable; LED lights cycling abnormally; currently located at TechData; ISP is China Mobile.
- 📅 2026-05-18 08:35 — Agent — Guided Mr. Li through a factory reset (hold reset button 5+ seconds); issue persisted with no change to LED behavior.
- 📅 2026-05-18 08:35 — Agent — Asked Mr. Li to check for a default Linksys SSID in Wi-Fi scan; customer confirmed none was found.
- 📅 2026-05-18 08:35 — Agent — Concluded hardware fault likely; informed Mr. Li that warranty/RMA options would be confirmed and communicated by email same day or next day.
- 📅 2026-05-18 08:35 — System — Ticket auto-assigned to [xiangjie.zhang@concentrix.com](mailto:xiangjie.zhang@concentrix.com).
- 📅 2026-05-18 08:37 — Agent (Kelly Cheung) — Sent email to Mr. Li requesting a photo of the product bottom label (serial number) and a complete screenshot of the China Mobile contract.
- 📅 2026-05-18 08:41 — Customer (Mr. Li) — Replied via iPhone with a photo (image0.jpeg) and a PDF attachment (attachment 1.pdf) — first submission.
- 📅 2026-05-18 08:42 — Customer (Mr. Li) — Sent a second identical reply with the same photo and PDF attachments (duplicate submission).
- 📅 2026-05-18 08:46 — Agent — Posted internal note to @Kris Qin asking if warranty/RMA can be processed for this China Mobile contract device (purchase date: 11 June 2024).
- 📅 2026-05-18 12:41 — System — SLA trigger: L1 Phone Time to Resolve Ticket.
- 📅 2026-05-18 12:46 — System — SLA trigger: L1 Phone Time to Respond to Customer Email.
- 📅 2026-05-18 (after 12:46) — Agent — Posted second internal note to @Kris Qin clarifying that the customer had first contacted China Mobile, who directed him to TechData; asked where the RMA should be processed.
- 📅 2026-05-19 01:56 — System — HF Theatre API update logged.

-  2026-05-19 (approx. 01:56–04:39) — Agent (Kelly Cheung) — Sent email to Mr. Li asking him to retake and resubmit complete contract photos (lift overlay slip, photograph all pages, ensure no obstructions, good lighting).
-  2026-05-19 05:56 — System — SLA trigger: L1 Phone Time to Resolve Ticket (second instance).
